To listen to the audiocast of the presentation live or a replay of the event, please visit the company's web site at www.amarantustherapeutics.com.

Amarantus Therapeutics Inc. also announced that the company has appointed Vern Norviel, J.D. to the position of Corporate Secretary. Mr. Norviel is a partner at Wilson Sonsini Goodrich & Rosati, where he leads the firm's patents and innovation counseling practice. Joining the Board of Directors is Kenneth L. Coleman, Chairman of Accelrys, Inc., a leading software provider to the biotechnology industry and Gene Mancino, a founding partner in Mancino Burfield Edgerton LLP, a life sciences executive search firm.

"We are pleased to welcome Kenneth, Gene and Vern to the Company at this critical stage in Amarantus Therapeutics' growth," said Mr. Cleary. "All three are highly respected in their sectors and strengthen our solid team, providing a good balance of scientific, business and legal experience."

Mr. Norviel previously served as general counsel and corporate secretary of Perlegen Sciences, Inc., senior vice president and general counsel at Affymetrix, Inc., and partner at Townsend & Townsend & Crew LLP in Palo Alto. Vern has more than two decades of experience in formulating successful strategies for life science companies and the development of their IP programs. During his career, he has authored or prosecuted more than 15 patents that have been litigated in the United States and abroad, and has overseen intellectual property lawsuits throughout the world.

Mr. Coleman is founder, former Chairman and CEO of ITM Software (sold to BMC Corp.). Previously, he was executive vice president of global sales, service and marketing for Silicon Graphics, Inc. and vice president of product development at Activision, Inc. Mr. Coleman

currently serves on the boards of Accelrys, City National Bank, MIPS Technologies and United Online. He earned both a bachelor's and a master's degree from The Ohio State University. He also served as a captain in the United States Air Force.

Mr. Mancino has been involved in the life sciences industry since 1979. He advises both development stage and fully integrated biopharmaceutical companies with respect to operational management, strategic leadership and corporate governance. He is currently a Business Advisor to Creative BioVentures LLC , a Board Member at Fish Nature, Inc, and Limited Partner at Mediphase Venture Partners and Taraval Associates LLC. Gene earned an AB degree from Princeton University.

About Amarantus Therapeutics, Inc.

Amarantus Therapeutics, Inc. is a privately-held biotechnology company developing first-in-class disease-modifying treatments that address the underlying cause of cell death, known as apoptosis, associated with a wide range of diseases, including neurodegenerative and cardiovascular. Amarantus Therapeutics' most advanced drug candidate, AMRS001, is a growth factor indicated for the treatment of Parkinson's disease and Myocardial Infarction.
